PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 6 years of experience architecting and building enterprise applications, REST APIs, and AI-powered systems. Strong expertise in Laravel, PHP, React.js, FastAPI, Python, PostgreSQL, and cloud infrastructure. Experienced in database optimization, distributed systems, asynchronous processing, AI/LLM integrations, and production deployments.

TECHNICAL SKILLS

- **Backend:** PHP, Laravel, FastAPI, Python, REST APIs, Livewire, FilamentPHP, RabbitMQ
- **Frontend:** React.js, Next.js, TypeScript, JavaScript, Inertia.js, Tailwind CSS, Bootstrap
- **Databases:** PostgreSQL, MySQL, Redis, MongoDB, TimescaleDB, Vector Databases, Qdrant
- **AI:** OpenAI APIs, LLM Integration, LangChain, MCP, Prompt Engineering, OCR, AI Automation
- **DevOps:** Docker, Linux, Nginx, Git, GitHub Actions, CI/CD, DigitalOcean, Cloud Computing
- **Other:** Payment Gateways, Third-Party APIs, SMS & WhatsApp Integrations, Postman

PROFESSIONAL EXPERIENCE

Hectadata Pvt Ltd

PHP Developer

Remote, Malaysia

Jul 2024 - Present

- Architected and built scalable enterprise applications using Laravel, FastAPI, React.js, TypeScript, and PostgreSQL across backend, frontend, database, and API layers
- Engineered AI-assisted systems for legal analysis, vehicle monitoring, and overload detection, including document processing, compliance dashboards, and reporting at scale
- Designed and deployed multi-server on-premise and cloud infrastructure with load balancing across development, staging, and production environments for high availability
- Built AI-powered document extraction workflows using LLM APIs, OCR, and structured JSON responses
- Optimized REST APIs, PostgreSQL queries, and database structures; implemented asynchronous processing using RabbitMQ and contributed to CI/CD troubleshooting

Byrut Business Solutions

Web Developer

Remote, Andaman

Sep 2020 - Jun 2024

- Architected and shipped 20+ production applications across tourism, booking, e-commerce, management, and business automation platforms for diverse business requirements
- Scaled a tourism booking platform to 25,000+ monthly users, supporting hotel, ferry, cab, and boat bookings
- Engineered Laravel REST APIs and admin dashboards, booking engines, and pricing systems
- Integrated payment gateways and third-party APIs; optimized MySQL/PostgreSQL databases and queries
- Built responsive interfaces using React.js, Next.js, TypeScript, Inertia.js, and Tailwind CSS; managed production deployments across Linux, Nginx, Laravel Forge, and DigitalOcean

PROJECTS

- **Face Unlock Web App** — Facial authentication and login workflow using React.js, Node.js, PostgreSQL
- **NLP-Based Chatbot** — Conversational chatbot and automated response workflows using TensorFlow
- **Private Search Engine** — Privacy-focused internal search application built with PHP

AWARDS/CERTIFICATION

- International conference paper published on blockchain-based invoice factor & secure credit-based training.
- Won 2nd place in a national-level technical symposium paper presentation on Artificial Intelligence.
- Certificate of Participation International hackathon for Smart India hackathon 2020.

EDUCATION

Paavai Engineering College

B.Tech in Information Technology CGPA: 7.75/10

Namakkal

Aug 2017 - June 2021

ADDITIONAL

- Languages: English (Professional), Tamil (Native)
